

## Rise Up

So it's time to rise up, wise up, size up  
Open up the book and look to Jesus  
Holding on to all that he has told us  
Learn to wield the sword of truth with boldness  
Yes it's time to wake up, shake up, take up  
A life full of the Spirit do not fear it  
For if the almighty God is for us  
No demonic power can ever stand against us

*I, I will think twice next time he lies  
Telling me I'm not worth the time  
I'll lift my eyes and then reply  
"My life is now secured in Christ"*

Now it's time to gaze up, praise up, raise up  
A people who will live with hearts surrendered  
Tuned in to the heart of God the Father  
Ready to believe all he has authored

Yes it's time to suit up, boot up, root up  
The sin that sometimes gets us so entangled  
For there is a plan for God's creation  
Jesus dying on the cross for our Salvation

Let's not be unaware our fight is not just mortal  
But there is one who seeks to conquer and devour us  
But we can stand up strong  
Clothed with God's Holy armour  
As we resist that scheming liar will just run run run
